## AIG Construction Multiline Differentiators

### Market Leading Experience

Our global technical underwriting, claims and risk engineering expertise demonstrates our continued willingness and capability to find innovative solutions and support clients' safety measures.

### Capacity

Well-engineered risks can unlock AIG's significant Construction capacity to meet clients' unique coverage needs.

### Engineering Back-Up

Experienced risk engineering across a wide range of occupancies to support underwriting and client risk management allows us to consider the difficult risks which others may be reluctant to take on.

### Multinational Excellence

Worldwide coverage (subject to sanctions and restrictions) may be provided by our Multinational Centre of Excellence for all captive or fronting needs, local policy issuance or innovative risk transfer solutions.

### Captive Fronting Solutions

We can offer captive fronting solutions and wrap-around captive programmes; we support clients in building a long-term, sustainable risk management framework.

### Claims Expertise

A dedicated global team of specialised claims professionals with experience in handling high value and complex claim situations, worldwide.

## Claims help when it matters most

In the event of a major claim, AIG will confirm coverage under the policy as quickly as reasonably possible. Once coverage is confirmed, we promise to provide the Policyholder with immediate working funds of up to 50% of our share of the agreed estimate within 7 days for: property damage/repairs, clean-up costs and extra expense/increased cost of working.
